

UCARS will be hosting a seminar called Amateur Radio 101 on Saturday, October 26 at 9:00 AM. The location is the American Red Cross at 125 Pedro St., Monroe, NC.

This seminar is for anyone interested in amateur radio and have not pursued a license, people who are licensed and want to learn more.

If you are already an experienced ham, recommend this program to your neighbors and friends who have expressed in interest in ham radio.

There will be speakers about antennas, the construction and use. and some show and tell. The topics to be covered are:

- Antennas, what are they?
- Antennas for Amateur Radio Frequency bands.
- Construction of your own antenna.
- Testing your antenna
- Where to purchase material needed to build your antenna.
- Antenna build for the "high end of HF", i.e., 10 meters and 6 Meters.

You can RSVP on our Facebook page at:
